**COMPANY
PROFILE**

ITP?

Established in Neuchâtel in 1998 by Fabienne Lucchesi, Info-Tech Partners now resides within the Canton of Vaud.

ITP started as a small IT consultancy and has grown to manage over 50 consultants working with clients across diverse industries.

Our client base consists of major players in industries like food & drinks, private banking, luxury products manufacturing, Swiss Public Administrations, material production, and tobacco.

Though primarily serving Swiss clients, we occasionally provide resources to other European countries. We emphasize proximity, striving for the ideal match between client requirements and consultant expertise, creating efficient experiences for all parties involved.

Our consultants benefit from our comprehensive support in handling legal and administrative aspects during their work in Switzerland.

We are committed to creating win-win situations with exceptional service quality and undivided attention at fair prices.

Guided by our core values of transparency, respect, and integrity, Info-Tech Partners has experienced significant success, as demonstrated by our increasing sales turnover.

WHAT DO WE DO?

ITP specializes in recruiting and selecting top IT talent, as well as providing administrative support.

Our expertise includes:

- Identifying suitable resources to support clients' growth and optimize costs.
- Handling payroll management for hired resources.
- Offering tailored HR services such as permanent placement, payroll, outsourcing, and training.
- Managing off-site IT project outsourcing.

Our services include:

- Top IT consultants recruitment & selection off-site.
- Payroll management.

ITP VS PEERS

Since 1998, ITP has grown within a dynamic market where reliability, reactivity and professionalism are keys to success. ITP values are loyalty and honesty towards both clients and consultants which insures minimized resource's turnover.

Over the years, we have benefited from the trust and respect won from our clients and consultants. ITP is a human scale company.

Thanks to our reduced overheads (most of ITP's employees are not hired in contract terms but in fixed terms), we are able to adjust to our clients budget restrictions and to compete with larger scale organizations.

OUR TEAM

Fabienne Lucchesi is an HR consultant and the company managing director. She is responsible for ITP's finances, for strategic alliance's negotiation and for client relationships' followup.

Until 2006 Fabienne was also responsible for sourcing consultants.

Nicole Le Déaut is our HR manager.

Her duties are administration, accounting and contracting.

Nicole joined the company in 2000.

Stella Cousin is in charge of sales and headhunting, she focuses on how to improve the candidates and customers experiences.

For several years, she helped multiple entities to match and connect them with the best talent.

Our team speaks **French, English** and **German**.

CODE OF ETHICS

Info-Tech Partners adheres to a code of ethics, focusing on:

Human Rights: Strictly complying with SECO's law on renting services and promoting non-discrimination.

Working Conditions: Adhering to Swiss Labor Law and providing enhanced social security.

Environment: Supporting soft mobility and resource conservation.

Fair Practices: Maintaining transparency, combating corruption, and ensuring fair competition.

Consumer Issues: Addressing customer inquiries and resolving disputes promptly.

Community Development: Sponsoring the Gianadda Foundation and supporting the Non-violence Project.
